DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 07.07.05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of **Patent No. 6,856,669** has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-30 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. **As per claims 1, 27 and 28 and dependent claims 2-15**, the examiner found no reference in the prior art that disclosed or made obvious a method comprising the steps of detecting ionizing radiation spatially resolved as transmitted through a subject, while Compton scattered radiation in the subject is essentially prevented from being detected, wherein the ionizing radiation directed towards the subject is provided within a spectral range so that more photons of the ionization radiation are Compton scattered than absorbed through the photoelectric effecting the subject as recited in independent claims 1, 27 and 28.

5. **As per claims 16, 29 and 30 and dependent claims 17-26**, the examiner found no reference in the prior art that disclosed or made obvious an apparatus comprising a filter arrangement arranged in front of an X-ray source; the filter arrangement having a filter function depending on a subject to be measured so that ionization radiation is filtered within a spectral range so that more X-ray photons of the ionizing radiation are Compton scattered than absorbed through the photoelectric effect in the subject as recited in independent claims 16, 29 and 30.

Art Unit: 2882

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
